We are alone  
We are alone

In this time and place  
In this day and age  
A silent war is waged  
For death it knows no age  
It is a killing field  
For all the pain they feel

All alone  
Let them go  
We abandon hope  
All the pain it brings  
Eternal strength

Where is the money spent  
No miracles are sent  
And all the promises you made  
Already came and went  
The innocence of child  
You raped them all the while

All alone  
Let them go  
We abandon hope  
All the pain it brings  
Eternal strength

Down, let down  
And when we die, sing  
We are alone  
(We are alone)  
We are alone  
(We are alone)

I'd like to smash this whole place  
And shove it back in your face  
And scrape you off my shoe  
Just like the shit that coats all your words  
And keeps you high on your throne  
And pays the mortgage on homes

And feeds the mouths of hungry hookers  
Fancy cars and boat homes

You'd better back up the boat  
'Cause when I'm slitting your throat  
You'll finally learn to see that we all die alone  
And when you lie in your grave  
With all the friends that you've made  
You'll finally learn to see you've always been

Alone, alone  
Let down, alone
