The sun will always shine on you, you turn my ocean
deepest blue
I never had my thoughts from you, you're my deepest
blue
If mother nature ever chose a name, im sure that she
would chose the same
I never had my thoughts from you you're my deepest
blue

Chorus x2

Am i dreaming now walkin on the moon and i dont no
how to reach you
everytime i try and move closer to you (closer closer
closser closer)

We've only got this time to prove that together we can
make it through
I'll never have my dreams from you you're my deepest
blue
If temptation ever came my way i no the words i'll
always say
I'll never have my love from you you're my deepest
blue

Chorus x2

everytime i try and move closer
(everytime i try and move closer)

Chorusx2

am i dreamin now
