I've been thinking how to step to you
And still try my best to keep my cool
And make sure that I don't break Your rule
While I try to solve a mystery
Now it seems that everybody knows
But it seems not everybody shows
That Love is the only way to go

(No it doesn't matter what you see)
All I want is, want life to be
Is to be loved
Loved

Chorus:

When he's down you should help your brother
When it comes around we should help one another
Help build him up when he's down and out
Ask what you can
Do when you see he needs help from another
When it comes around we should help one another
Help build him up when he's down and out
That's what love's about
Love's about
Love's about
That's what love's about

I'll keep trying hard to help you see
'Cause I really wanna make you see
Help you understand what love can be
(If you'll only, only just believe)
Is there any way to keep it real
While I try to tell you what I feel
And make sure you really know the deal
(So can anybody talk to me?) Talk to me

All I want is, for life to be
To give love
We gotta give love
Come give love

Chorus:

When he's down you should help your brother

When it comes around we should help one another

Help build him up when he's down and out

Ask what you can

Do when you see he needs help from another

When it comes around we should help one another

Help build him up when he's down and out

That's what love's about

Love's about

Love's about

That's what love's about

I'm calling everyone around me

Oh won't you please, please oh tell me

What can make a love song about love?

Love can ?

Chorus:

When he's down you should help your brother

When it comes around we should help one another

Help build him up when he's down and out

Ask what you can

Do when you see he needs help from another

When it comes around we should help one another

Help build him up when he's down and out

That's what love's about

Love's about

Love's about

That's what love's about

When he's down you should help your brother

When it comes around we should help one another

Help build him up when he's down and out

Ask what you can

Do when you see he needs help from another

When it comes around we should help one another

Help build him up when he's down and out

That's what love's about

Love's about

Love's about

That's what love's about

Ask what you can?
