Chorus:

Dreaming dreams
Of you my love
Magic creepin' deep
Into my mind
Dreaming dreams
Of you my love
Waiting for the day
You'll be forever mine

Of all the dreams
I ever hoped could be
Loving you is what I need
Every solitary thing I do
Is because I care for you

Chorus

I know that time
Will take it's course
That's the way of life
I know
Soon enough
You'll be here to take me
Don't forget
My love will wait for you

Chorus

Remembering
The things you love to hear
The ring I gave to show I knew
No, we'll never, ever drift apart
Not in our hearts
No matter what we have to do

Chorus
