You are real  
You're more than a dream  
I can see you  
I can picture it happening

You are here  
Right next to me  
I can see you  
I can picture it happening

Hello again  
Hello baby  
I'm glad you're here  
I need you close to me

You are here  
Do you notice me  
Without you this room feels empty

You are here  
Right where you want to be  
Without you my life is empty

Hello again  
Hello baby  
I'm glad you're here  
I need you close to me

Before you walk out of my life can't we give this a try  
Before you walk out of my life can't we give this a try

Hello again  
Hello baby  
I'm glad you're here  
I need you close to me

Hello again  
Hello baby  
I'm glad you're here  
I need you close to me
