It's was such a perfection
Your life is a contradiction
You spend all of your money
Got nothing left to show

A disease
You can't shake it
You want more from the taste
The rain is coming down
You got no place left
To go, to go

Hold on
Be strong
Don't give up
Hold on
Be strong

Prescription that kills
But you need it refilled
Oh, try it once
It will take your pain away
You're right cuz I feel nothing
For once I'm not running
But I'm standing still
Tell me do you feel
The same, the same?

Hold on
Be strong
Don't give up
Hold on
Be strong
Don't give up

I just want to be left alone
Without you knockin' on my door
I just want to be left alone
Without you pestering me for more
(Pestering me for)
More

Hold on
Be strong
Don't give up
Hold on
Be strong
Don't give up

(I'm not running away)
(I'm not running away)
Be strong
(For the stance)
Don't get
(Don't get it wrong)
Hold on
(I'm not running away)
(I'm not running away)
Be strong
