Stacy Clark
"Matter Of Time"

Here we are
Sitting in a room
All of my attention is on you
You can hear rain from above
I think I'm falling in love

It is just a matter of time before I'm gonna make you
Make you mine
And you smile
You take my breath right away
Whoa
Oh
Oh
Oh

All the things I want to say
Hurry up and look my way
All the things I want to know
Hurry up and tell me before you go

It is just a matter of time before I'm gonna make you
Make you mine
And you smile
You take my breath right away
Whoa
Oh
Oh
Oh

It only takes one mistake
Please
Please
Please don't ever go away

It only takes one single day
Please
Please
Please don't ever go away
Say you'll stay

It is just a matter of time before I'm gonna make you
Make you mine

And you smile
You take my breath right away
Oh
Oh
Oh
Oh

And you smile
You take my breath right away
