Running in circles
Walking the line
Running on empty
You're wasting your time

I did the best that I can
And I am not enough
For you to love
And now you're all alone
It's time to grow up

You got what you wanted
You got your space
You should have never started
Playing this game

I did the best that I can
And I am not enough
For you to love
And now you're all alone
It's time to grow up

I gave the best I can
I am not enough
For you to love
And now you're all alone
It's time to grow up
It's time to grow up
