Peppermint patties are making me sick
I know better
I keep craving them

You can't handle just to be my friend
But you want me
You want me in your bed

Driving
You'd swear I was drunk
I know better
I am just tired
You keep me hanging on
You keep me hanging
I know better then to let you back in

I use to justify why you where such a flake
We are guilty of the choices that we make

Driving
You'd swear I was drunk
I know better
I am just tired
You keep me hanging on
You keep me hanging
I know better then to let you back in
I know better then to let you back in
