You, make it easy  
When all you do is please me,  
Without you I'm alone,  
Oh, I'll never let you go

It's touch and go,  
I la-la love you so,  
And all I want to do is be with you

When ever I'm lost,  
You, help me find my way  
You, help me every second,  
Of every single day

It's touch and go,  
I la-la love you so,  
And all I want to do is be with you (2x)

Can't you remember when we first met,  
And all of those feelings that you had  
Your, love was tasted, never wasted  
I have you in my life, you, by my side,  
You, in my life, you, by my side

It's touch and go,  
I'll la-la love you so,  
And all I want to do is be with you (2x)

And all I want to do is be with you,  
And all I want to do is be with you
