Chorus:

You know I like it  
When you're here  
You tell me I am the one  
You know I like it  
When you hold me in your arms, alright!

Everyday  
I die for your affection  
But you push me away  
You don't care  
That I feel this attraction  
When you're close to me  
Everynight  
An endless river's flowing  
Through my eyes over you  
Can't you see  
I would steal the moon, babe  
For your love, to be mine, Heh!

Repeat Chorus twice

Time is right  
To open up your heart, babe  
Put a stop to your lies  
Now confess  
Tell me that you need me  
By your side, forever

Chorus
