Leaves fall  
Cold wind blows  
She looks  
Staring out the window  
I wish I could be a hero  
Staring out the window

You make it worse  
Oh  
You make it worse  
Just so you know  
You make it worse

Leaves fall  
Cold wind blows  
I can't smile between  
When you talk about me everything in this world looks  
upside down  
When staring out the window

You make it worse  
Oh  
You make it worse  
Just so you know  
You make it worse

I didn't ask for this  
Sometimes I wish I wished for something better

You didn't ask for this  
Sometimes you wish you wished for sunny weather

You make it worse  
Oh  
You make it worse  
Just so you know  
You make it worse
