We're all afraid our country is bleeding  
We're all OK and no one is leaving  
We're all the same and no one's leaving  
We're breathing  
We already lied tonight  
We've already tried to fight  
It's all the same  
So why are you dreaming  
We're all OK our country is bleeding  
We're breathing  
We already lied tonight  
We already tried to fight  
It's the song that makes you sad  
To be loving the life like that  
It's the man that makes you mad  
It's the love you never had  
We already lied tonight  
We've already tried to fight  
We are ready  
I'm tired for sleep  
We already lied  
We are ready
