I don't mind living with crazy people
Who are living day by day
I don't mind living with lonely people
Living life their own way

Held up for ransom I can't remember my name
And I don't know where I come from
Held up for ransom I don't remember my name
And I don't know where I come from

I don't mind living with Crazy people
With their heads stuck down between their knees
I don't mind living with lonely people
With their hearts stuck up on their dreams

Held up for ransom I can't remember my name
And I don't know where I come from
Held up for ransom I can't remember my name
And I don't know where I come from
