I hope that you missed me  
I'm glad that you kissed me  
I'll see you again when I die  
Know that I missed you  
Know that I'll kiss you  
Whenever an angel flies by  
You're crazy in bathtubs  
Those innocent backrubs  
Demons were scared of thee  
I know it's confusing  
I know it's amusing  
The devil is inside of me  
I know where you are  
I know where you are  
So thanks for my music  
Know that I used it  
I named every song after you  
The guitar is stronger  
I learned how to love her  
The wood brings me closer to truth  
I know where you are  
I know where you are  
I know where you are  
We walk, we find  
I dance by your inner mind  
I just want to thank you  
The pain made me stronger  
The artist is what I will stay  
Know I forgive you  
I hope I outlive you  
I'm glad that you stood in my way  
I know where you are  
I know where you are  
I know where you are  
I know where you are  
Want to thank you  
Want to thank you my friends
