"I Will Be Something"

Visit "[I Will Be Something](#)" on MotoLyrics.com

We are falling from these rooftops
We are losing where we stand
All my lovers were forgotten
When I died right at your hands
Where were you when I was bleeding?
Where were you these last three years?
I have seen the world together
With my pen and all my tears

I will be something, that's all.
You will be nothing at all
I will be something, that's all
You will be nothing at all

I am screaming from these rooftops
I am crying out demands
All my people are forgotten
All my friends are in this band
Where were you when I was teething?
Where were you through my kid fears?
Introduced me as an orphan
And to all, all, all, my family
I will be something, that's all
You will be nothing at all
I will be something, that's all
You will be nothing at all
