Rubber bands are holding me together
I need the perfect smile for my mother
Look, we've done away with our disease
When I'm dead you'll know me by my teeth
Got my braces off this morning
I should have listened to the doctor's warning
Change my face, you call me names and tease
When you're dead I'll call you what I please

You're perfect, now just smile
You're perfect, now just smile

Rubber bands are holding me together
I need the perfect smile for my mother
Look, we've done away with our disease
When I'm dead you'll know me by my teeth

You're perfect, now just smile
You're perfect, now just smile

You're perfect
You're perfect
You're perfect
Now just smile (x2)

You're perfect, now just smile
You're perfect, now just smile

(Verse and Chorus sung at the same time in
background)
