I took a drive down an empty road
To a place that I've never known
I needed time just to think and the time just to be alone
I saw a girl walking with a boy
Holding hands like there was no choice
I saw them stop at a light as they held each other close
All that I want is you not a memory
But it's just so hard if we're not supposed to be
I don't know how to let you go
'Cause you're more than I ever expected
I can't accept that it's over and just let it die... I can't say
goodbye

This song is for every night
We stayed awake and for every time
I heard you breathing in my phone, asleep
'Cause you forgot to tell me goodnight
I miss how you used to sing
In your car in my ears you'd ring
And I want it again just so bad I would do anything
All that I want is you not a memory
But it's just so hard if we're not supposed to be
I don't know how to let you go
'Cause you're more than I ever expected
I can't accept that it's over and just let it die... I can't say
goodbye
