I guess I'm on my own
I'm done thinking about this
And now that I've grown
I'll get on it with it
I've been hunting around
I've been looking for you
And it feels empty inside
Because I can't find you
I know that life can be blue
All things depend on you
What can I say to you?
What can I say or do?
To cure this pain you're going through
Hold me now, Hold me tight
I'm scared to turn off the lights
And I feel like a star
Bursting threw you
I know that life can be blue
All things they depend on you
Sometimes sunshine leaves' you snow-blind
And I know that you feel the same way as I do
You got no money and it really don't show
You got the angels standing next to you
Next to you
Sometime sunshine leaves you snow-blind
And I know that you feel the same way as I do
You got no money and it really don't show
You got the angels standing next to you
Sometime I feel so high, I don't why, and I really don't
try
Next to you
Com'on
I gave you what you want
It was more than what you'd need
You only made me bleed
Com'on
