"Fire juggling"

Visit "[Fire juggling](#)" on MotoLyrics.com

Mister night calld me to fight him
But my power have no limits
He sand me some scary noises
Ha he thought he's gonna fright me
Lot like sand grains I got courage
Peace of wit and peace of knowledge
What can you do im just better
I can even juggle fire

How do you like it now did you had enough
so
How do you like it now guess you'r not so tough
so
DIE

Soon prepare yourself for failure
I've got bigger spirit power
You were my friend now my rival
Say your last wish to your angle
You had a cheek to hurt me blindly
All you wanted was my money
What can you do im just better
I can even juggle fire

how do you like it now ,did you had enough
so
how do you like it now,guess you'r not so tough
so
how do you like it now ,didl you had enough
so
how do you like it now,guess you'r not so tough
so
die...
