"House on the tree"

birds are flying high and sing for me
fishes swimming down there in the sea
now im going far to walk around
im in the sky but still my feet are on the ground

carpenters are working by the sun
and the baker checking out his bun
children playing soccer till the night
to stay awake until the moon will show a light

this day is summer's best
we got no other time to waste
take a nail and get into the shed
we got the wood, and I'll give you a hand

dad, I need
to be build
and it is such a sunny day today
can you clear off a few hours
if you'll say yes I'll be happy
and we'll make it, build a house on the tree
