### "The no where trip"

Visit "[The no where trip](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Why should you go, when you could stay  
Death is so far, so far away  
I been there with you, you were my wife  
But is it a way, to take the knife  
Memory comes, unexplanble miss  
Remembering the day with our first kiss  
I walkd on the road, this horrible place  
I saw how you died, blood on your face

This kind of situation is killing me inside  
I thought the worsts beyond,  
But then I saw you holding the knife  
This kind of saul distruction turn's me out of my mind  
I thought the worst was beyond  
But now I see, the death is my life

Now it's the time to get some sleep  
But I can not do it 'cause the pain is too deep  
Tierd of trying and cheer my self  
It will never stop, the feelings left  
Searching for some way to be with you  
I so wanna die but I wanna live too  
The long trip to nowhere has no good way  
Oh why should he take you, why you could'nt stay  
This kind of situation is killing me inside  
I thought the worst was beyond  
But then I saw you holding the knife

This kind of saul distruction turns me out of my mind  
I thought the worsts beyond  
But now I see the death is my life
