

Death In December "Blistered"

Visit "[Blistered](#)" on MotoLyrics.com

It's six o'clock and I'm dying for you
Does this town give a shit about me
I guess I'm just like everybody
Or everybody is just like me

You can't take me down,
Your nothing in my eyes,
You'll never see inside, where I am blistered
You can't take me down
Your taking what what is mine
But I see through your disguise
I am blistered

This night may last forever
I can't take this life much longer
If I take my chance to get out (if I ever get out of this
town)
I will never say goodbye

Loneliness won't last forever, could this finally be over
Soon I'll have you right where I want you
