The Shadow Of Stars
Fall upon Your hair
I kneel at Your base
Silver Halos there
'Fort Nada! '
In the almost snow
We call Angels
You come and go
You're the Emptiness
That was meant to be
The missing piece
Of the Puzzle of Me

The dye is cast
My tired Heart
The dye is cast
Our Heart can last
The dye is cast
My tired Heart
The dye is cast
Our Heart Will Last

We're battling in
Love's Full Moon Glow
We're Heaven above
We're Heaven below
You're the Sun and the Moon
And the Stars combined
You'll always be
Universe to Me

Idolatry, Idolatry, Idolatry,...
A Tree, a Tree,...

The Shadows Of Stars
