

Death In December "Kill Yourself Trying"

Visit "[Kill Yourself Trying](#)" on MotoLyrics.com

Never had the time to care about the little I had
I'll let you take away what may be everything to me
You'll never know how it felt to be alone inside, about to
die
Is it worth my time, I'll kill myself for you

Take worth my time, I'll kill myself for you
Take my hand, we are diving in, falling nowhere
Kill yourself for the last time
A thousand times I felt cold without you

Remember how it felt to be alone
We're goin nowhere fast, but I don't care
This bitter taste is getting old
But December nights will never fade away
