

## Death In December "Lying Awake"

Visit "[Lying Awake](#)" on MotoLyrics.com

I lye awake your beside me,  
And i can still feel your breath against my heart  
I'd lye awake while your shaking,  
And I am dying inside and no-one knows.

And if i had the chance to be with you forever i would  
take away,  
Everything outside of me,cause you are so much more,  
And if i had the chance to be with you forever I would  
take away  
Everything outside of me cause you are so much more.

And if i ever feel you shaking...Take my hand cause im  
inlove with you and i can't take much more of this  
without you here with me....  
Without you here with me..

Half the world would't know what it's like to lose your  
soul but I can see it so cleary,  
Take my hand and you will see you and I were meant to  
be cause I can see it so clearly.

And if i had the chance to be with you forever i would  
take away  
Everything outside of me cause you are so much more,  
And i i had the chance to be with you forever I would  
take away everything outside of me cause you are so  
much more.

And if i ever feel you shaking...take my hand cause im  
inlove with you and i cant take much more of this  
without you here with me...without you here with me..

Loneliness wont last forever...  
Loneliness wont last forever....  
Why can't this finaly be over...  
Ill never have you right where I want you..  
I want you...
