

Death In December "The Nights Devine"

Visit "[The Nights Devine](#)" on MotoLyrics.com

I'm staring at this black lit night, I wonder why my life
flies by
We will stand, We will fall, but we will never change for
you
Summer nights and Cadillacs seem to be all thats left
Cool tattoos will never change, but we will never be the
same

We're never changing ourselves, This is where we're
meant to be
We're never changing ourselves

It's six A.M its time to go, It's time for us to show this
world
Take my hand and come with me, this is where we're
meant to be

We will stand, we will fall, but I'll never look back at the
things we've lost
Seems like a minute of my life, is all I have to keep
inside, This nights devine.
