

Death In June "Burn Again"

Visit "[Burn Again](#)" on MotoLyrics.com

The brown pearl of bliss
In this wolf's lair abyss

Dignity and solitude
The gain of my fortitude
The strength of my body
Is the strength of my mind
Joyous joys-fleeting moments
Forever, the sordid kind

These dreams I worship
And nightmares I love
This "together" that lasts for never
This farewell coloured blood love

These dreams I worship
And nightmares I love
This "together" that lasts for never
This farewell coloured blood love
