Paranoia is an icy start
But a start, nonetheless
A convenient memory
Is a gift from God
A gift from life
And sodomy
The domination of lies
Break and brand all
Secret dreams
Devine god like - gold like -
Sperm like
We gather, we sow
We scheme
And phrase for us
Near certainty
The siren voids
All fool's destiny
The death will seal
Their prince liberty
Courting sudden endless
Earthless, vacancy
The domination of lies
Break and brand all
Secret dreams
Devine god like - gold like -
Sperm like
We gather, we sow
We scheme
Paranoia is an icy start
But a start, nonetheless
A convenient memory
Is a gift from God
Bereft of life
And sodomy
The siren voids
Old fool's destiny
The death will seal
Their crown prince liberty
