

Death In June "Killing Smile"

Visit "[Killing Smile](#)" on MotoLyrics.com

You can spend your while behind my falling star
And slide beneath you and your longing killing smile
I got the time to spare
But you don't need it
I've got my mind in anyway
You can always shine behind my hidden door
Just like a flame I'll know with you I couldn't tell
I'm not the one who ever walks light
Don't have a feeling but I wanna waste my time
But you know I could do
And you know I want to
With you
All the time
All the time
I'm feeling like I want to hang around
Don't have a needing any more to lay you down
But you know I want to
With you
And you that I could
With you
All the while I spent my time making schemes
Now I'll know when things are always what they seem
But you know they should
Yeah
And you know I want that
Yeah
And you know I want that
Yeah
And you know I want that
Yeah
