

Death In June "Winter Eagle"

Cemetery with lights
Mother night
Buried universe
At midnight
The slicing of flesh
Ever thinner
Buried universe
Dimmer and dimmer
Amnesia, agenda
Pagan slave
Thrown to illusion
Dead, the brave
Away from the placenta
Jagged roof high
We drop into holes
Bittersweet! Die!
Eternal damnation
Seems so far from me
A shadow of thrones
Unholy
Black coals for a heart?
Life never be
Each passage of time
Each different country
Cemetery with lights
Mother night
Buried universe
At midnight
The slicing of flesh
Ever thinner
Buried universe
Dimmer and dimmer...
