Low vibration of the human skull
Clean the cobwebs from my head
Twisted ribbon of my dna
It's like the spaceman said
A million miles from reality, that's where
Â« the line will form a hero Â»
Where dimensions sleep and dreams collide

Chorus:
Take us all down in time wave zero
Time wave zero
Time wave zero
Time wave zero

The end of history today
Â« see the ships spinnin' round the phone
Braniac trust in a garden of goons Â»
I'm feelin' dizzy like I lost my way
Take me now to the planet of gray
Planet of gray
Please be Â« solid (sorry?) Â»Â“cÂ“cdon't wanna be no
hero

Chorus repeat

I've seen the eyes of ant man bee3
They laugh and chuckle while attending me
Â« read my fungus Â» from the days of nero
Fiddle while rome burned

Chorus repeat

Where the end of the world collides
And the food keeps comin' down
And everybody knows the rug
That's coverin' the ground
Monkey man knows what he's shuckin
