Watch the planes take off and touch the clouds  
Thinkin' I'm in a mess, in trouble now  
Buried her in a hole last night  
Underneath a tree

Chorus:

My life went wrong  
When I met valerie  
My life went wrong  
When I met valerie

One night we walked into a field  
Behind the trailer park she kneeled  
The moon was hangin' like a mask  
I lost my temper for the last time then

Chorus repeat

Repeat this stanza 4x:  
Valerie is gone now  
Valerie is sleeping  
Valerie is sleeping now...
