I held my breath
To get as close as i could get
To sudden death
And see what's in front of me
Let's go to bed
Let my hypnosis clear your head
That's what you said
Jump into reality
It's alright, it's okay
I'll help you through the night
It's alright, it's okay
We'll keep the dream alive!

I can't live without
I need mouth to mouth
When I feel so tired, my soul dies
You kiss me back to life
I can't live without
Need to scream and shout
And I'll be smiling when I see
This wild and crazy life pass by

We watch the stars
So many dreams yet to fulfil
Don't mind the scars
They make it more beautiful
It's alright, it's okay
We'll make it all worth while
It's alright, it's okay
The world's waiting your smile

I can't live without
I need mouth to mouth
When I feel so tired, my soul dies
You kiss me back to life
I can't live without
Need to scream and shout
And I'll be smiling when I see
This wild and crazy life pass by

It's alright, it's okay
I'll help you through the night

It's allright, it's okay
We'll keep the dream alive!

I can't live without
I need mouth to mouth
When I feel so tired, my soul dies
You kiss me back to life
I can't live without
Need to scream and shout
And I'll be smiling when I see
This wild and crazy life pass by
