

Death In Vegas "Aisha"

Aisha
We've only just met
And I think you ought to know
I'm a murderer
Babies need blood

I have a portrait on my wall
He's a serial killer
I thought he wouldn't escape
Aisha
He got out

We live in a cemetery
A cold and damp place

And science runs through us
Making us Gods

The rules are all wrong
Every perversion is justified
They honestly believe dead bodies
Anything goes around here

I still want to to be human
What am I?
What am I?
I'm a murderer

Aisha
I'm confused
Aisha
I'm vibrating

I'm a murderer
The Gods all suck
