When you kiss the base of my spine  
Make my body into your shrine  
You give me this feeling deep inside  
One that I can no longer disguise  
While other snakes just shed their skins  
Fucked holes pointing out my sins  
Even though I realise that history's not on my side  
Even though I realise the pioneer skin still curls up in  
my eyes

If I don't go crazy, I'll lose my mind  
I saw a life before me but now I'm blind  
I wanna go to heaven, never been there before  
I wanna go to heaven, so you give me some more

Flying high upon the gallows  
Too messed up to step out of the shadows  
A drugged up heart that knows no sorrow  
Rescued from this deep dark hole  
Stick on these boots and sharpen the nails  
Time is nigh for you leather girls  
Maybe we should end this race

Vanish while we cannot leave no trace

If I don't go crazy, I'll lose my mind  
I saw a life before me, but now I'm blind  
See one-arm film stars on alien beaches  
Potted gold and tattooed faces  
Harrison murals on the corner, tupperware boxes full of  
hops  
Diazepam dreams there catching streams  
Paper dinosaurs flash blue and green  
Still I've got a flash-bulb head  
Still I've got a flash-bulb head

If I don't go crazy, I'll lose my mind  
I saw a life before me but now I'm blind  
I wanna go to heaven, never been there before  
I wanna go to heaven, so you give me some more

Come along nice, come along dead

Scorpio rising, and paint it red  
A psychic equalizer in your head  
Come along nice, come along dead  
Scorpio rising, and paint it red  
A psychic equalizer in your head (repeat all)
