fields of light/of life?)

they hold me inside

count, my stars, they are lucky, in the sky

there's a time

when you go off the line

and all my things, look like someone else's memories

cold outside, burns a great big hole in my heart

I'll just wait, til you're happy, and your smile makes it  
right

it makes it right

sleep inside, the ocean has (smiles?)

it shimmers and, and it (flows/glows), for some people

I know it shines

I know it shines

stay inside

don't the colors make you blind

they hold me inside

count my stars

let them shine

I know they shine
