come up crash with the muses fells dust into ash

come so close that i might see the light inside me i
might see

let me hold you tight and arms tight and arms you lost
your chance

come so close that i might see the crash of light come
down on me

with good luck i'll find the dark stop me now

find me to your heart

let me hold you tight like rain and sunshine on a rainy
day

see the lights

come so close that i might see see the light come down
on me

searching like the fresh goes by small like wind refuse
to die

free me now so i can see the taste of wind who lock me

does the wind indeed like me

does the wind indeed like me

with good luck i find the dark stop me now

find me to your heart

let me hold you tight like rain and sunshine on a rainy
day

let me hold you tight and arms tight and arms you lost
your chance

come so close that i might see the crash of light come
down on me

the crash of light come down on me

the crash of light come down on me

let me hold you tight and arms tight and arms you lost
your chance

come so close that i might see the crash of light come
down on me

with spin luck i'll find the dark stop me now find me to
your heart

the crash of light come down on me

so tonight the crash goes by

small like wind and refuse to die

the crash of light come down on me

come so close that i might see see the light come down
on me

i hold you tight like rain

sunshine on a rainy day

sunshine on a rainy day
