abandoned by a dream  
ville psudo memories  
what should and what should never be  
shoved in your face  
guillotined everyday  
it works to stab you in an acoustic way

Royal Widow  
Royal Widow  
its so hard to act as if its fine  
because its just to fake a smile  
Leave Me now forever more  
ive already had my trial

abandoning the scene  
her heretic evil deeds  
what is an will kill to be  
stabbed in the back guillotined and heart attack  
no bitch i dont want you back

Royal Widow  
Royal Widow  
its hard to act as if its fine  
its to fake a smile  
Leave Me now forever more  
ive already had my trial  
You better fuck off now bitch now!!!
