### "The Spooky Gloom"

Harassed by the gloaming  
Darkened skies are coming  
Invaders from above descend  
Descending from another land  
Haze creates a spooky gloom  
Participate your fuckin' doom  
The wound of darkness open bleeds  
A talisman is what you need

Face the creatures of the night  
Beyond your wildest thoughts of mind  
Born out of a darkful ass  
Intensively You're horrified  
Beyond the air you can't see through  
Another world of gloomy doom  
Permanent In memory  
Never no more fantasy

In the fog  
You have no sight  
The spooky gloom  
There is no more  
Your fear has died  
Is crawling around you
