Verse:

Im sick of this all my fucking life  
I thought everything would turn out right  
All your fucking rules  
All your fucking words  
Nothing can stop the thing that you are  
Theres no escape from this prison we're in  
The light that you see is the darkness within  
Whats your problem with us you fucking bitch  
Whats with all your stupid laws

Chorus:

You take it away from us  
You steal all that we live for  
You have no second thoughts on this  
You've done it before, you'll do it again  
theres no knowing when it will end!!

Verse:

So whats wrong with wearing these clothes  
So whats wrong with having long hair  
Its just our fucking style you see  
Its just the way we like to live  
but why! why! why! why! why! why! why! why!  
Why do you have to take it away  
Why do we have to live through this shit  
(back to chorus)

Mosh Section:

Why wont you die  
You made us cry  
Death reigns from the sky!

(Solo)

(Chorus)

Outro:

You take it away from us  
When will this nightmare fucking end!
