The moment I believed in something  
I saw my space open wide  
To far too see, too soon to go there  
But I could dream

Crossing over the shadows  
And through my days of confusion,  
I'm free - I am free - Yeah!

No looking back, no yesterdays, I'm  
Right where I am  
And so I know, what I know and  
It's all I need

Riding straight to the mountain  
And through my days fo confusion  
I'm free - I am free -Oh yeah!

Now I can dream

Crossing over the shadows and through my days of  
confusion  
I'm riding straight to the mountain cause now I am my  
illusion  
I'm flying out on the highway I'm feeling all that I am  
and I'm free, I am free
