When there's no way out you become the one you are  
Endless nights of sun that don't relieve the dark  
And all I remember... the words that she said

In the laughter, find the answer  
... Escape the abyss  
Resurrect me, don't forget me  
... Love's dying wish

The emptiness that comes when you know it's time to  
see  
In all it's glory, oh how the truth enlightens as it bleeds  
The one thing we'd kill for has died in our arms

In the laughter, find the answer  
... Escape the abyss  
Resurrect me, don't forget me  
... Love's dying wish

In a dream thought I heard love's dying wish  
In a low velvet whisper she let go

In the laughter, find the answer  
... Escape the abyss  
Resurrect me, don't forget me  
... Love's dying wish
