[Sonny speaking]

We go together, or we don't go at all

[Verse 1]

Everyday we go to school

But we don't listen to the rules

'Cause we are not foolish

Everyday it's all the same

We don't want to work, but get the fame

This is the song about our life

So listen to the words we speak

Or you won't understand it

On junior high we hanged around on the streets after school

But we don't count

Every where in the world is trouble

And I don't want to make it double

I don't want to hear freace

I want to live in peace

[Chorus]

Everyday the same

Why do you give me always the blame?

It's not my main

If there's some much pain

If you wake true the rain

'Cause I'm not insane

[Verse 2]

We're Sonny and Stiflah

We grown up together

We rap about life, what we been true

Our life is everyday the same

Why is life so much pain?

If we going to party, there's one thing you gotta know

We party together, or we don't party at all

Every week complaining

About the things we have and don't have

Complaining about school

But where we wanna waving with the tool

Everyday people dying

And family crying  
I still have no answer  
We gotta think  
For the thing we have and other people don't  
Everyday the same  
Does it always have to stay?  
Well, I still don't know

[Chorus]  
Everyday the same  
Why do you give me always the blame?  
It's not my main  
If there's some much pain  
If you wake true the rain  
'Cause I'm not insane

[Verse 3]  
Every day the same  
When does it ever change?  
Or is there nothing to arrange?  
I am so young  
Why don't somebody give an answer?  
Nobody knows an answer  
To this questions of mine  
So I can't touch the line  
Why are things impossible?  
Why don't we fly high  
An touch the roast side  
We gotta find thought the game  
A name why this stay's all the same  
Where do we all come from  
For what meaning do we living?  
Maybe it's for the giving  
Well I still don't understand

[Chorus 2x]  
Everyday the same  
Why do you give me always the blame?  
It's not my main  
If there's some much pain  
If you wake true the rain  
'Cause I'm not insane
