[Verse 1]

You sent a note
To my friend
And you asked her
To the prom
You asked me out
Seconds after
And you'd cheated on us
All along

[Co-Chorus]

I'm not gonna put up with this any more
Oh you asked us both and believe me that's no score

[Chorus]

I'm gonna say this now
That you're not my type of guy
Gonna say this now
That I don't love you tonight
Maybe in some day
I will like you too
But at least for now
There's no me and you

[Verse 2]

You kissed my friend
As I walked in
And I saw you
Kissing her
I ran away
And cried all day
Then I realised
You'd cheated on us

[Co-Chorus 1]

I'm not gonna believe what you say now
You made something bigger than a promise; it was a
vow

[Chorus]

I'm gonna say this now
That you're not my type of guy

Gonna say this now
That I don't love you tonight
Maybe in some day
I will like you too
But at least for now
There's no me and you

[Bridge]
You cheated on us
Hey I will not forgive you
Yeah you cheated on us
Oh if you die I still won't regret not forgiving you
Look I've had enough now
So I'm gonna say goodbye
And it's because of one thing
It's because you told a lie

[Chorus]
I gotta say this now
Na, na, na, na
Gonna say this now
La, la, la, la
Maybe in some day
Na, na, na, na
But at least for now
La, la
I gotta say this now
That I want you to be gone
Gotta say this now
That my love for you is none
Maybe in some day
I will love you too
But at least for now
There's no me and you
I gotta say this now
That you're not my type of guy
Gotta say this now
That I don't love you tonight
Maybe in some day
I will like you too
But at least for now
There's no me andÂ...
There's no me andÂ...
There's no me and you
