[Verse 1]

Everytime we felt a part
I know it's true
'Cause it came from your heart
Baby why can't you see that I
Need you here with me
Now would you be my girlfriend?

[Chorus 2x]

You can't run away...oh no
You can't
You can't run away
You can't run away from my love

[Verse 2]

I'm try to steal you with my blingy bling
I try to call you on the phone ringy ring
But do you still love me?
Only you now the answer
Time passes so slow without you
And there's no proud without you
To gotta climb that cloud
Why don't you give me a second chance
To give you my sense
From love to you
And hope to
I hope you understand my love for you
Because I would die inside If didn't understand

[Chorus 2x]

You can't run away...oh no
You can't
You can't run away
You can't run away from my love
