### "Genocide Operation"

Destroyed, humiliated, killed still while alive  
Skeletal bodies, eyes full of emptiness  
Stench of death floating over moist soil  
Where creatures dig graves for themselves

You lead to the death and creatures will follow  
Will and power of mind exists no more  
Cut their wrists and command to lie in grave  
And their own do the rest

Buried bodies, piled corpses  
Burned filthy flesh  
Charred remains of the children  
Mutilated corpses of women  
Mutilated corpses of women  
Crushed bodies of men  
Altogether, like garbage  
Just like they are,  
Just like they are...

Lead them to death and they will follow  
You command and they submit  
No glory, no victory, nothing  
Genocide operation, wiping out the worthless
