In the last time occurrences guided me  
To the land where the lie lives  
It's sovereigns have to humbug us  
In such a way that all men's thinking's growing stiff  
Joining in the conversation, reforming the situation -  
This epoch is too weak-willed for this  
Lifeless end or endless life  
Narcotics affect the senses

Melancholic dreams or hysterical faces  
Fascinated in a state without preceptive faculty  
Strength of purpose wearies and the complexion fades  
Because manipulation's modern methods stamped  
from cruelty  
You're just blinded by a dream that does not exist  
You think that you will find your fortune  
Appear this feeling? NO - feelings disappear  
Narcotics signify gloom

Influxes are soporific  
Physic and psychic narcotic  
Lugubrious I guess I'm sick  
Physic and psychic narcotic

At first sight the front's iridescent  
Loss of sight but future's earsplitting  
'cause awfully the trombones will sound in the end

Consciousness is embedded in illusions  
Which are incompetent to criticism  
Shades of deception cover relected images  
Reality is dimming and the untruth is rising  
Sentiment is apathetic and argument just hypothetical  
So all responsible men have an easy game  
Illness of time and time of illness  
Narcotics the braincells wane

Influxes are soporific  
Physic and psychic narcotic  
Lugubrious I guess I'm sick  
Physic and psychic narcotic

At first sight coherence's not to see  
Loss of sight earth's dirge frustrating me

I am under the impression that I suffocate  
Some people feel passion but they don't premeditate  
Addicted to their fashion not considering their fate  
Mankind needs a lesson, it's imperative and not too  
late

The wise's providence affect anxiety neurosis  
Event's concomitants affect a higher dosis  
That is the price we pay and we all know this  
So the afterthought's evanescence entails narcosis

Narcotic  
Soporific and despotic  
Narcotic  
I guess I'm sick  
Narcotic

Pessimistic  
Premonition  
Pscyopathic  
Politician

Persuasive  
Propaganda  
Paranoic  
Perpetration

The proclamation of the real present predicament  
Would cause people t recognize their passive  
behaviour  
So we reached the point where we have to change our  
view  
Lift the veil of concealed events - and above all -

Reconquer vigilance!!!
