Born of the void as a female human,
Sha was full of innocence and weakness
(Lust...Pain...mother of perversion)
Her own face soon betrayed her
It was time for demoniac vengeance
(Lust...Pain...mother of perversion)
Then came her suicide to rejoin Satan,
Her Father that taught her how to Fight the plague
(Lust...Pain...mother of perversion)
Now she is the mistress of sin
Debauching the humans one by one
They try hard to reset temptation
Sometimes try praiyng gods (symbols of their
feebleness)
Her hatred is almighty and ubiquitous
Always striking with a sweet brutality
Victims are always chosen at random
The race she once belonged to shall perish
(Lust...Pain...succubus of all vices)
She spawned sins and blasphemies
Incest, sodomy, rape,...her depraved mind created
them all
(Lust...Pain...succubus of all vices)
The mistical whore will penetrate everybody
Purity is scorned even if mankind keeps their dying
faith
(Lust...Pain...succubus of all vices)
She vermins that the vermin has stopped growing
At kind of majestic infarificide (?)
Men and womenkilling each other
In the name of an invisible force
Her spirit is a vagina which procreated the Evil
Our Father Satan gave ger an immortal name
Lilith.
