When you can't speak a word
Or even shed a tear
And you just don't feel
Like anyone is near
I'll be there
When you're screaming out loud
And no one hears a sound
And you just don't feel
Like anyone's around
I'll be there
You know you're never gonna beat it
Alone you're never gonna leave it
But I'm here waiting for you to see

That I could go on and on and on about
The way I want to love you
Everyday

When you're trying so hard
And getting nowhere
And you're stuck inside
Where nobody cares
I'll be there
When you can't hang on
And you can't let go
You can't say yes
And you can't say no
I'll be there
You know you're never gonna beat it
Alone you're never gonna leave it
But I'm here waiting for you to see

That I could go on and on and on about
The way I want to love you
Everyday

In all my hopes, in all my dreams
You'll come running back to me
And all your pain will fade away
If you listen to me, hear me when I say

When you can't speak a word

Or even shed a tear
And you just don't feel
Like anyone is near
I'll be there
